

“Vieni, vieni più vicino” - in English **“Come, come closer”**- is a video conceived by Giulia Gussago and realised by Compagnia Lyria for the 8th edition of the *Progetto Verziano*, which took place in the **Verziano Detention House**, in Brescia, between January and June 2019.

The creative activity **involved 19 prisoners**, among women and men, **and 18 free citizens** taking together part in weekly-writing-and-contemporary-dance workshops.

Along the path, some prisoners left the project as they ended their sentences while others joined in, all contributing the collection of pictures and writings which are now the evidence of this amazing multiple-human journey.

“Vieni, vieni più vicino” condenses the gestures and the words transpired along these 5 months of meetings, dances, waits, good-byes, hugs, stories and emotions.

Also representatives from different institutions, collaborators and friends appeared on these 8 days shooting, as well as a former prisoner, met on our first edition of the project, and now being an active part of its promotion.
